STATUS

1. **Claims 78-110 are pending.**

DRAWINGS

2. **Formal drawings are required in reply to this Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.**

This application has been filed with drawings that are considered informal; however, said drawings are acceptable for examination and publication purposes. The review process for drawings that are included with applications on filing has been modified in view of the new requirement to publish applications at eighteen months after the filing date of applications, or any priority date claimed under 35 U.S.C. §§119, 120, 121, or 365.

CLAIM REJECTIONS — 35 U.S.C. §102

5. Rejections Withdrawn.

REASONS FOR ALLOWABILITY

6. The following is the Examiner's statement of reasons for allowability: Limitations of the claims at issue in the instant application have multiple implementation details not disclosed in the prior art of record.

As per independent claims 78, 87, 89, 98, 100 & 109, said claims recite in part the following limitations for an incentive point management system: "using a calculation rate based on at least one specific condition including a purchase amount of the current transaction. . . ." Support for these elements are found in the specification at least at p. 18, ll. 1 & 2. The closest prior art reference of record to Schultz US 5,056,019 (AUTOMATED PURCHASE REWARD ACCOUNTING SYSTEM AND METHOD) fails to disclose either the combination with other prior art or motivation for combining or modifying a given reference to show an incentive point management system "using a calculation rate based on at least one specific condition including a purchase amount of the current transaction. . . ."; therefore, the instant invention is not anticipated by the prior art of record. Furthermore, the prior art references of record do not implicitly, individually or in combination disclose elements that would render the claimed limitations in the instant invention obvious to one of ordinary skill in the art.

Art Unit: 3622

Dependent claims 79-86, 88, 90-97, 99, 101-108 & 110 are allowable because they depend from independent claims 78, 87, 89, 98, 100 & 109 and associated base claims respectively which contain allowable subject matter.
